

Canada's Navigata Communications Selects Global Crossing for International Voice Services

- Navigata resells Global Crossing's international and domestic termination.
- uCommand delivers additional operational efficiencies.

FOR IMMEDIATE RELEASE: MONDAY, DECEMBER 22, 2003

Florham Park, N.J. – Global Crossing announced today that it is providing Navigata Communications, a Canadian telecommunications provider serving small and medium-sized businesses worldwide and Canadian carriers and government agencies, with four high-speed voice service connections (DS-3s).

Navigata Communications, which began running traffic over Global Crossing's network in August 2003, selected Global Crossing for its combined offering of global availability and advanced solutions tailored to the needs of carriers and enterprises worldwide.

"Global Crossing offered us an efficient, cost-effective way to provide our customers voice connections," said Owen Gilbert, director of carrier relations at Navigata. "We've also been impressed by our account team's commitment to working with us, and the unique ease-of-use uCommand delivers."

uCommand[®], Global Crossing's secure, private Web-based network management tool, allows Navigata Communications to order voice and data services, monitor its network services, create utilization reports, establish end user and product accounts, and view monthly billing reports.

"We continue to bring new customers onto our global network as they recognize the unbeatable combination of cost-effective solutions, reach and service we offer," said Ted Higase, Global Crossing's executive vice president, carrier sales. "Our business relationship with Navigata is another example of our success in successfully targeting new markets and expanding our presence worldwide."

Global Crossing's Carrier Outbound Services (COS) provides complete termination capabilities for facilities-based carriers over a global network reaching more than 500 major cities, 50 countries and 5 continents around the world. Termination is available to 197 Local Access Transport Areas (LATAs) and more than 500 international destinations. Access to Global Crossing's network via T1, DS3 and OC-3, OC-12, and OC-48 is available from any Global Crossing Point of Presence (PoP) around the world.

Global Crossing services are delivered through premier dedicated customer support, 24 hours a day, seven days a week, from state-of-the-art Network Operations Centers (NOCs) and call centers worldwide.

ABOUT GLOBAL CROSSING

Global Crossing provides telecommunications solutions over the world's first integrated global IP-based network. Its core network connects more than 200 cities and 27 countries worldwide, and delivers services to more than 500 major cities, 50 countries and 5 continents around the globe. The company's global sales and support model matches the network footprint and, like the network, delivers a consistent customer experience worldwide.

Global Crossing IP services are global in scale, linking the world's enterprises, governments and carriers with customers, employees and partners worldwide in a secure environment that is ideally suited for IP-based business applications, allowing e-commerce to thrive. The company

offers a full range of managed data and voice products including Global Crossing IP VPN Service, Global Crossing Managed Services and Global Crossing VoIP services, to more than 40 percent of the Fortune 500, as well as 700 carriers, mobile operators and ISPs.
